Who we are

Your Planner provides expert professional advice to help you achieve what you want out of life. Each business is privately owned by professionally qualified and authorised financial planners. The Planner Profile provided with this Guide has specific information about your Planner and it is important that you read this information.

Your Planner, or the business they work for, has chosen to be licensed through us, MyPlanner. MyPlanner holds an Australian Financial Services Licence that allows it to legally carry on a financial services business and is responsible for any financial services they provide. We also provide your financial planner with training, compliance, professional indemnity insurance and you have access to free dispute resolution services.

How we can help you

As you go through life, your priorities or perspectives may change, but one thing that should remain constant is managing your finances well to help you get what you want from life.

Your financial planner will guide you by:

- helping you identify your personal goals, such as an early retirement, travelling or building funds for your children's education
- developing strategies for saving, investing, and contingency plans to protect you against life's hazards along the way
- keeping you on track by regularly reviewing your direction and adjusting as required.

Your financial planner understands that your priorities may change over time and will be here to guide you on your financial journey.

There are many services that we can provide to you including, but not limited to:

- Setting your goals and objectives that are specific and measurable
- Managing cashflow including budgeting, income streams, Centrelink, Aged Care and cashflow management
- Managing debt such as debt reduction strategies
- Investing monies including dollar cost averaging, superannuation, non-superannuation investing, borrowing to invest and portfolio construction
- Protecting you, your family and businesses by reviewing or establishing income protection, life term insurance, TPD insurance, trauma insurance, business insurance and discussing whether to hold insurance inside or outside of superannuation
- Estate planning strategies such as asset ownership
- Structuring or restructuring of trusts, companies, small business and Self-Managed Superannuation
- Healthcare strategies for health, aging and medical needs

How we work with you

We have a fundamental principle to act in your best interest. It is critical that your financial planner ascertains that any recommendations he/she makes are appropriate to your individual needs and circumstances.

We encourage you to be open and honest with the information you provide and understand that personal, family and business issues can be quite private. We stand by our promise to maintain your privacy as detailed in our Privacy Policy.

If incomplete or inaccurate information is provided to us we may not be able to provide advice to you or you may be provided with advice that is not appropriate to your needs.

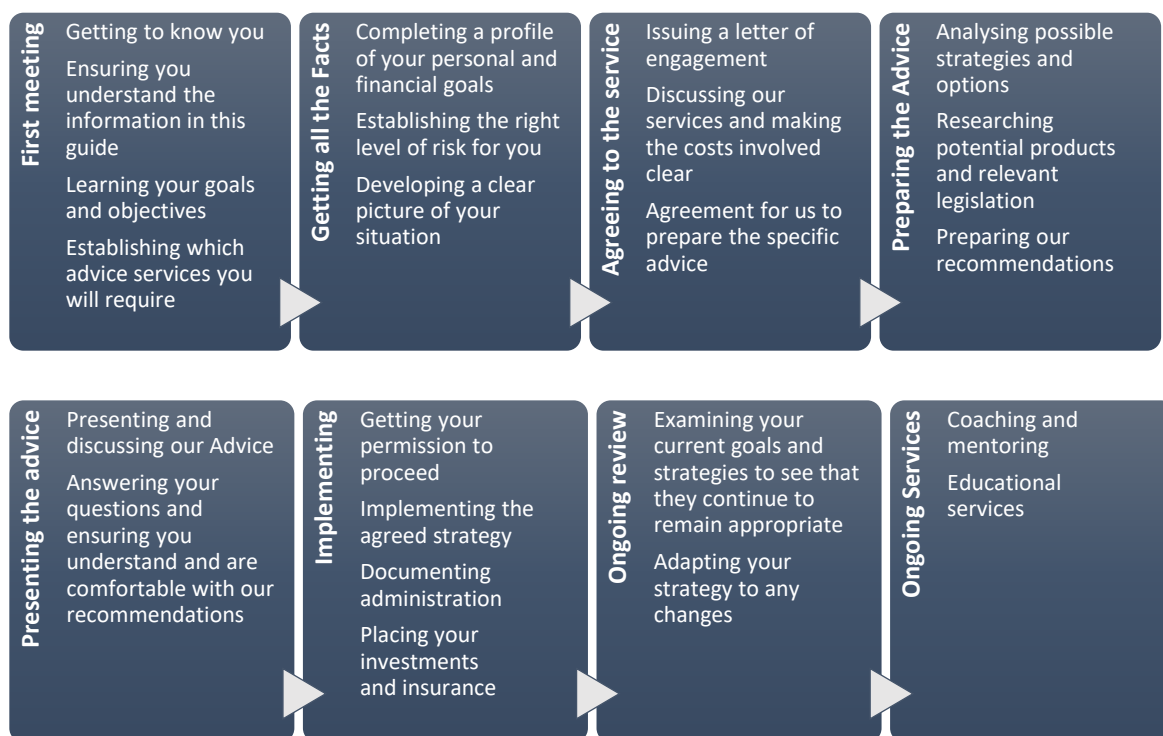

If you have needs outside of the experience level of your financial planner or he/she cannot access products that are not in your best interests, they may seek assistance from the MyPlanner network of financial planners to try and obtain suitable support.

If your Planner is unable to access suitable professional connections that provide appropriate support in your best interests then you will be informed that advice cannot be provided to you.

Once we agree with you on the scope of the advice you require and the costs involved for this advice we will ask for your agreement to pay even if you decide not to proceed and implement our advice recommendations.

We aim to build enduring relationships with all our clients by providing quality services that meet their changing needs in life. The initial stages of preparing financial advice for you are outlined in the chart below. However, it is important to remember that the best financial advice adapts to meet your changing needs and priorities over time. Continually reviewing your strategy is essential.

Stages to preparing financial advice

Everything is documented

When your planner provides personal financial advice for the first time you will receive a Statement of Advice (SoA). This SoA details your personal advice, along with the basis for the advice. If you are given additional advice at a later time, you may be given a further SoA. This may be a shorter document that incorporated information already provided in the initial SoA.

If there has been no material change to your circumstances or strategy, you may be given a Record of Advice (RoA) or a verbal update. If we give you a verbal update we will document this discussion and a copy of this record can be made available to you upon request. Copies of any previously supplied advice documents are available from your Planner.

If your planner recommends the purchase of a financial product (other than ASX listed securities) you will be given a Product Disclosure Statement containing information about that product.

We encourage you to read all documents provided and ask your planner any questions you may have. Sometimes you may wish to make changes to your investments without receiving advice. In these cases, we can take your instructions by telephone, email or in person and arrange for the transaction to be completed without providing personal advice. If you have verbally asked us to do this we will ask you to provide this to us in writing, if you have asked us to do this by email we may phone you to confirm you did send the email.

We will clarify and agree to all fees and payments with you before providing our advice and services. The actual costs will be shown in our written advice to you.

Keeping your plans on track

As your circumstances change over time, it is important that your Planner regularly reviews both your strategy and your situation to ensure recommendations remain current and appropriate to your changing circumstances.

Ongoing services include varying levels of advice, review, contact and information and your Planner will discuss and agree your specific ongoing service requirements as part of the provision of your initial advice.

Should you choose to enter an ongoing fee arrangement with one of our planners you will receive an annual Fee Disclosure Statement. This will outline the fees paid and services you were entitled to and receiving in the preceding 12 months.

How we are paid

You may choose to pay fees directly to MyPlanner or, where possible, they may be deducted from your product. As the Licensee, MyPlanner collects any advice fees and pays these to your Planner's Business. The Planner Profile explains how your Planner is paid.

We're committed to a fair and transparent fee structure for the advice and services we provide. We offer flexible payment options to suit your needs. Your planner will explain, and agree with you, any fees and payment options before providing advice and services to you.

The costs of our advice and services include charges for preparing and implementing the initial advice and may also include charges for ongoing advice and services.
